Write a program to sort the elements from the following list. (Create a function to solve it)

List = [1, 5, 2, 9, 3, 22, 13]

Code :-

```
def sortelement(list1):
        return sorted(list1)
```

List = [1, 5, 2, 9, 3, 22, 13]

my_list = sortelement(List)

print(my_list)

Output :-

[1, 2, 3, 5, 9, 13, 22]
